Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Bottorff indicated that properly invoking 35 USC 112, sixth paragraph for the claimed input means and vehicle-to-vehicle distance setting means would overcome the art of record. Guidelines for properly invoke 112, sixth paragraph are provided in section 2181 of the MPEP. Also, the structure of the input means is understood to be the specific switch structures disclosed in the specification, and the vehicle-to vehicle distance setting means is understood to be the disclosed controller and sensor arrangement, such as the arrangement depicted in Figure 4. In the event that the "input means" and "vehicle-to vehicle distance setting means" defined in accordance with 112, sixth paragraph are intended to define different structure than the structure described above, Applicants should clearly explain which structures are defined by these limitations.
